## ICOMIA RECREATIONAL BOATING INDUSTRY STATISTICS BOOK

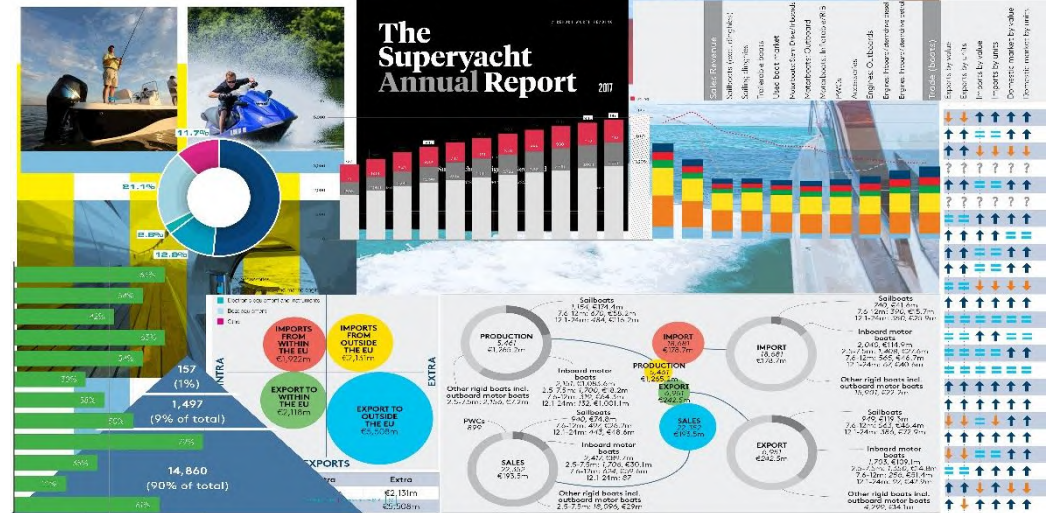

ICOMIA has just published the latest edition of its annual Recreational Boating Industry Statistics Book. The trade association’s membership is estimated to represent more than 80% of the world’s leisure boating business, making ICOMIA well positioned to provide an international compilation of data covering the industry’s diversified and varied segments. ICOMIA’s statistics are used extensively within the industry, especially by those interested in investing or seeking to work within certain sectors.

View sample pages and order your electronic copy [here](#)

INVALUABLE DATA + MARKET INTELLIGENCE

The ICOMIA Statistics Book contains:

- **2020 global data snapshot & an overview of COVID-19 impact on the industry**
- **Detailed national reports** on the industry’s largest market countries
- **Global summaries** of key product segments from 25 countries
- **Export/import data** for international trade in boats from 43 countries
- **Marine engine statistics** from ICOMIA’s Marine Engine Committee (IMEC)
- **International Boat Show statistics** (courtesy of the International Federation of Boat Show Organizers)
- **The Superyacht Shipyards Report** (courtesy of The Superyacht Group)
- **Industry articles** selected by IBI Magazine
- **Raw-data Excel spreadsheets** to assist those carrying out more detailed research

The International Council of Marine Industry Associations - **ICOMIA** - is the international trade association representing the global marine industry since 1966. ICOMIA brings together national boating federations in one global organisation and represents them at an international level, presenting a strong and united voice when dealing with issues challenging the industry. For further information, visit [www.icomia.org](http://www.icomia.org)

## QUARTERLY ECONOMIC STATISTICS REPORT BY COUNTRY – *NOTES*

Data is intended to allow tracking of economic performance in specific countries. Therefore, it is advisable **not** to compare different countries' statistics as different indices often are used due to different national practices and available sources.

**We strongly encourage users to read the notes that accompany each country's statistics, where you can find information and explanations on indices and sources used.**

For each country data from the last 12 quarters are provided. Please note that some categories have changed over the years, so please take extra care when comparing data. One change to note is that the Big Mac index for all countries in the eurozone is averaged, rather than being calculated separately for each country.

### **The latest data provided is:**

- Q1: January – March (2021)

## Argentina
